

Job Board Profile & Verification Logic

1. Product Direction

- Platform model: job advertisement board, similar to 104/1111 style posting.
- Main advantage: platform can help verify worker/employer documents before serious hiring.
- Worker can search/apply easily; employer/agency/family employer must pass verification before posting sensitive jobs.
- Employer can filter workers by document status: Ready to Work or Employer Self-Check Required.
- Important rule: Verified Badge is not always the same as Ready to Work.

2. User Roles

Role	Purpose	Main Permission
Worker	Find job, apply, build profile	Search jobs, apply, upload verification documents
Company / Factory	Post company jobs	Create job drafts, publish after verification
Agency Company / 仲介公司	Post jobs as licensed agency	Publish only after agency verification
Agency Staff / 業務	Recruit under agency company	Can act only after approved by agency admin
Family Employer / 看護工 Employer	Find caregiver	Post masked caregiver job after review
Admin	Review and control risk	Approve/reject users, jobs, documents, badges

3. Worker Registration Flow

- Step 1: Login with phone number, Google, LINE, or other supported login.
- Step 2: Choose worker category and residence/work status.
- Step 3: Fill basic profile: name, nationality, city, job type, language, salary expectation, available date.
- Step 4: Upload personal document + selfie. After admin/auto review, user gets Verified Badge.
- Step 5: Upload extra work-status documents if needed. After approval, user gets Ready to Work label.

4. Worker Status Logic

Worker Type / Status	Verified Badge Requirement	Ready to Work Requirement	Employer View
Student ARC	Login + basic profile + personal document + selfie	Student work permit approved	Ready / Need work permit check
Blue Collar Migrant Worker	Login + basic profile + personal document + selfie	Transfer document, contract-ending proof, or valid work-status document approved	Ready / Need transfer check
Professional / White Collar	Login + basic profile + personal document + selfie	If open work right: Ready. If sponsorship needed: Employer Self-Check Required	Ready / Sponsorship needed
ARC Other / 其他 - Open Work Right	Login + basic profile + personal document + selfie	For MVP: no extra document required after Verified Badge	Ready to Work

APRC / Gold Card / Spouse ARC with work right	Login + basic profile + personal document + selfie	For MVP: no extra document required after Verified Badge	Ready to Work
Not Sure / No ARC	Login + basic profile + selfie	Not eligible for Ready to Work until admin review	Limited / Need verification

5. Employer Side Logic

- Employer registers and selects type: Company, Agency Company, Agency Staff, or Family Employer.
- Employer can create job draft before verification, but cannot freely publish high-risk jobs before approval.
- After worker applies, employer sees worker status clearly: Ready to Work, Verified Only, or Unverified.
- Employer can search workers in the same city and filter by work status, city, job category, nationality, language, availability, salary expectation, and sponsorship need.
- Employer can choose: use platform-verified workers or verify documents by themselves.

6. Employer Filter Requirement

- Filter: Ready to Work only.
- Filter: Verified Badge only, documents need employer self-check.
- Filter: Employer Self-Check Required.
- Filter: No sponsorship needed.
- Filter: Sponsorship needed.
- Filter: City / district.
- Filter: Worker type: student, blue collar, white collar, open work right.
- Filter: Available date / urgent worker.
- Filter: Language ability.

7. Required Documents

Profile	Documents / Data	Result
Worker - common	Phone/Google/LINE login, basic profile, personal document, selfie	Verified Badge
Student worker	Student work permit	Ready to Work
Blue collar worker	Transfer document / contract ending proof / work-status proof	Ready to Work
White collar worker	CV, diploma, portfolio, work experience. If sponsorship needed, employer must check.	Verified / Sponsorship Needed
ARC Other / Open Work Right	No extra document required for MVP after basic verification	Ready to Work
Company / Factory	Unified business number, company info, contact person, business proof	Verified Employer
Agency Company	Agency license, unified business number, company proof	Verified Agency
Agency Staff / 業務	Business card or agency admin approval	Approved Staff
Family Employer / 看護工	Identity, contact, city, basic caregiver need, eligibility document if required	Verified Family Employer

8. Badges / Labels

- Verified Worker: identity/profile/selfie has been checked.
- Ready to Work: user has enough verified work-status information for the selected worker type.
- Employer Self-Check Required: worker is verified, but work eligibility documents are not fully verified by platform.
- Sponsorship Needed: worker may need employer to process work permit.
- Verified Employer: company/family employer passed platform verification.
- Verified Agency: agency license/company status passed platform verification.

9. Admin Panel Requirement

- View worker profile, selfie, documents, and selected residence/work status.
- Approve/reject Verified Badge.
- Approve/reject Ready to Work label.
- Manually change worker status if needed.
- View employer/company/agency verification documents.
- Approve/reject employer permission to publish jobs.
- Hide/suspend suspicious user or job posting.
- Keep all documents private by default.

10. Acceptance Criteria

- Worker can register with phone, Google, LINE, or other login method.
- Worker can get Verified Badge after basic profile, personal document, and selfie are approved.
- Student worker only gets Ready to Work after student work permit is approved.
- Blue collar worker only gets Ready to Work after transfer/work-status document is approved.
- ARC Other / 其他 - Open Work Right can get Ready to Work after basic verification in MVP.
- Employer can filter workers by Ready to Work, Verified Only, Employer Self-Check Required, city, worker type, and availability.
- Employer can see clear worker status after receiving applications.
- Employer can decide to use platform-verified documents or verify documents by themselves.
- Agency staff cannot act independently unless approved under a verified agency company.
- Documents are not public and are visible only through permission/admin-controlled flow.
- Admin can manually override verification status.

11. Suggested Database Fields

workers: user_id, login_provider, worker_type, residence_status, verified_badge_status, ready_to_work_status, sponsorship_status, city, nationality, languages, available_date, expected_salary

worker_documents: id, user_id, document_type, file_url, review_status, reviewed_by, reviewed_at

employers: employer_id, employer_type, company_name, unified_number, verification_status, contact_person, city

job_posts: job_id, employer_id, job_type, city, salary_range, publish_status, verification_required, created_at

applications: application_id, job_id, worker_id, worker_status_snapshot, employer_review_status, created_at
