Struktur Database & Model

Model: `App\Models\ApplicationStatusHistory`

- **Tabel:** `application_status_history`
- **Kolom (Fillable):** `application_id`, `verified_badge_status`, `ready_to_work_status`, `sponsorship_required`, `employer_self_check_required`, `worker_nationality`, `worker_type_slug`, `recorded_at`, `recorded_by`

Model: `App\Models\Category`

- **Tabel:** `categories`
- **Kolom (Fillable):** `name`, `slug`, `icon`, `description`

Model: `App\Models\ChatMessage`

- **Tabel:** `chat_messages`
- **Kolom (Fillable):** `sender_id`, `receiver_id`, `message`, `type`, `attachment_url`, `attachment_name`, `attachment_size`, `is_read`

Model: `App\Models\City`

- **Tabel:** `cities`
- **Kolom (Fillable):** `name`, `region`

Model: `App\Models\DocumentType`

- **Tabel:** `document_types`
- **Kolom (Fillable):** `document_type_name`, `slug`, `description`, `worker_type_id`, `required_for_verified_badge`, `required_for_ready_to_work`, `verification_required`

Model: `App\Models\EmployerDocument`

- **Tabel:** `employer_documents`
- **Kolom (Fillable):** `user_id`, `document_type`, `document_url`, `status`, `review_note`, `reviewed_by`, `reviewed_at`

Model: `App\Models\EmployerStaff`

- **Tabel:** `employer_staff`
- **Kolom (Fillable):** `user_id`, `agency_employer_id`, `status`, `approved_at`, `approved_by`

Model: `App\Models\Industry`

- **Tabel:** `industries`
- **Kolom (Fillable):** `name`, `slug`

Model: `App\Models\Job`

- **Tabel:** `job_listings`
- **Kolom (Fillable):** `employer_id`, `title`, `employer_name`, `employer_type`, `location`, `salary`, `salary_period`, `tags`, `category`, `job_type_id`, `description`, `duties`, `requirements`, `benefits`, `hours`, `language`, `legal_status`, `eligibility`, `verification_required`, `is_urgent`, `status`, `risk_level`, `rejection_reason`, `posted_at`, `expires_at`

Model: `App\Models\JobApplication`

- **Tabel:** `job_applications`
- **Kolom (Fillable):** `job_id`, `user_id`, `status`, `cover_letter`, `employer_notes`, `status_snapshot_id`, `applied_at`

Model: `App\Models\JobType`

- **Tabel:** `job_types`
- **Kolom (Fillable):** `job_type_name`, `slug`, `description`

Model: `App\Models\Language`

- **Tabel:** `languages`
- **Kolom (Fillable):** `language_code`, `language_name`

Model: `App\Models\Payment`

- **Tabel:** `payments`
- **Kolom (Fillable):** `user_id`, `amount`, `payment_gateway`, `transaction_id`, `status`

Model: `App\Models\Skill`

- **Tabel:** `skills`
- **Kolom (Fillable):** `name`, `slug`

Model: `App\Models\Subscription`

- **Tabel:** `subscriptions`
- **Kolom (Fillable):** `user_id`, `plan_type`, `chat_translation_quota`, `starts_at`, `expires_at`, `status`

Model: `App\Models\User`

- **Tabel:** `users`
- **Kolom (Fillable):** `name`, `full_name`, `email`, `email_verified_at`, `password`, `role`, `nationality`, `current_city`, `company_name`, `industry`, `profile_completed`, `onboarding_step`, `avatar_url`, `phone`, `phone_verified_at`, `license_number`, `unified_business_number`, `verification_status`, `verification_note`, `verified_badge_status`, `ready_to_work_status`, `sponsorship_status`, `cv_url`, `selfie_file_url`, `selfie_verified_at`, `preferred_language`, `date_of_birth`, `gender`, `address`, `educations`, `work_experiences`, `skills`, `is_admin`, `fcm_token`, `worker_type`, `worker_type_id`, `current_work_status`, `language_abilities`, `is_cv_public`, `available_date`, `expected_salary`, `verified_badge_status`, `verified_badge_updated_at`, `ready_to_work_status`, `ready_to_work_updated_at`, `sponsorship_required`, `employer_self_check_required`

Model: `App\Models\VerificationCode`

- **Tabel:** `verification_codes`

- **Kolom (Fillable):** user_id, type, target, code, expires_at

Model: `App\Models\VerificationLog`

- **Tabel:** `verification_logs`
- **Kolom (Fillable):** entity_type, entity_id, action, notes, verified_by, verified_at

Model: `App\Models\WorkerDocument`

- **Tabel:** `worker_documents`
- **Kolom (Fillable):** user_id, document_type_id, file_url, original_filename, review_status, review_note, reviewed_by, reviewed_at

Model: `App\Models\WorkerDocumentRequirement`

- **Tabel:** `worker_document_requirements`
- **Kolom (Fillable):** user_id, document_type_id, upload_status, worker_document_id, required_by_date

Model: `App\Models\WorkerJobType`

- **Tabel:** `worker_job_types`
- **Kolom (Fillable):** user_id, job_type_id, years_of_experience

Model: `App\Models\WorkerLanguage`

- **Tabel:** `worker_languages`
- **Kolom (Fillable):** user_id, language_id, proficiency_level

Model: `App\Models\WorkerType`

- **Tabel:** `worker_types`
- **Kolom (Fillable):** worker_type_name, slug, description, requires_arc, auto_ready_to_work, eligible_to_work

- **Parameters:** (No explicit \$request->validate found in method body)

[GET|HEAD] /api/chat/messages/{userId}

- **Controller Action:** `App\Http\Controllers\Api\ChatController@messages`
- **Parameters:** (No explicit \$request->validate found in method body)

[POST] /api/chat/messages/{userId}

- **Controller Action:** `App\Http\Controllers\Api\ChatController@send`
- **Parameters (Validation):**
 - `'message' => 'nullable|string|max:2000'`
 - `'type' => 'nullable|in:text'`
 - `image`
 - `video`
 - `file'`
 - `'attachment' => 'nullable|file|max:20480'`
 - `// Max 20MB`

[POST] /api/chat/messages/{userId}/read

- **Controller Action:** `App\Http\Controllers\Api\ChatController@markAsRead`
- **Parameters:** (No explicit \$request->validate found in method body)

[GET|HEAD] /api/chats

- **Controller Action:** `App\Http\Controllers\Api\ChatController@conversations`
- **Parameters:** (No explicit \$request->validate found in method body)

[GET|HEAD] /api/chats/{userId}

- **Controller Action:** `App\Http\Controllers\Api\ChatController@messages`
- **Parameters:** (No explicit \$request->validate found in method body)

[POST] /api/chats/{userId}

- **Controller Action:** `App\Http\Controllers\Api\ChatController@send`
- **Parameters (Validation):**
 - `'message' => 'nullable|string|max:2000'`
 - `'type' => 'nullable|in:text'`
 - `image`
 - `video`
 - `file'`

- 'attachment' => 'nullable|file|max:20480'
- // Max 20MB

[PUT] /api/chats/{messageId}/read

- **Controller Action:** App\Http\Controllers\Api\ChatController@markAsRead
- **Parameters:** (No explicit \$request->validate found in method body)

[POST] /api/subscriptions/purchase

- **Controller Action:** App\Http\Controllers\Api\SubscriptionController@purchase
- **Parameters (Validation):**
 - 'plan_type' => 'required|string|in:daily
 - weekly
 - monthly'
 - 'payment_gateway' => 'required|string|in:line_pay
 - jkopay
 - stripe
 - mock'

[POST] /api/subscriptions/mock-callback

- **Controller Action:** App\Http\Controllers\Api\SubscriptionController@mockCallback
- **Parameters (Validation):**
 - 'payment_id' => 'required|integer|exists:payments
 - id'
 - 'status' => 'required|string|in:completed
 - failed'

[GET|HEAD] /api/subscriptions/status

- **Controller Action:** App\Http\Controllers\Api\SubscriptionController@status
- **Parameters:** (No explicit \$request->validate found in method body)

[GET|HEAD] /api/dashboard/worker

- **Controller Action:** App\Http\Controllers\Api\DashboardController@worker
- **Parameters:** (No explicit \$request->validate found in method body)

[GET|HEAD] /api/dashboard/employer

- **Controller Action:** App\Http\Controllers\Api\DashboardController@employer
- **Parameters:** (No explicit \$request->validate found in method body)

[POST] /api/notifications/announcement

- **Controller Action:** App\Http\Controllers\Api\NotificationController@announcement
- **Parameters (Validation):**
 - 'title' => 'required|string|max:255'

- 'body' => 'required|string'

[GET|HEAD] /api/admin/workers

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@index
- **Parameters:** (No explicit \$request->validate found in method body)

[GET|HEAD] /api/admin/workers/{id}

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@show
- **Parameters:** (No explicit \$request->validate found in method body)

[POST] /api/admin/workers/{id}/approve-selfie

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@approveSelfie
- **Parameters:** (No explicit \$request->validate found in method body)

[POST] /api/admin/workers/{id}/reject-selfie

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@rejectSelfie
- **Parameters (Validation):**
 - 'note' => 'nullable|string|max:500'

[POST] /api/admin/workers/{id}/approve-document/{docId}

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@approveDocument
- **Parameters (Validation):**
 - 'note' => 'nullable|string|max:500'

[POST] /api/admin/workers/{id}/reject-document/{docId}

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@rejectDocument
- **Parameters (Validation):**
 - 'note' => 'required|string|max:500'

[POST] /api/admin/workers/{id}/override-badge

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@overrideBadge
- **Parameters (Validation):**
 - 'verified_badge_status' => 'nullable|in:unverified
 - pending
 - verified
 - rejected'
 - 'ready_to_work_status' => 'nullable|in:not_ready
 - pending
 - ready
 - rejected'
 - 'note' => 'nullable|string|max:500'

[POST] /api/admin/employers/{id}/approve

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@approveEmployer
- **Parameters:** (No explicit \$request->validate found in method body)

[POST] /api/admin/employers/{id}/reject

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@rejectEmployer
- **Parameters (Validation):**
 - 'note' => 'required|string|max:500'

[POST] /api/admin/employers/{id}/suspend

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@suspendEmployer
- **Parameters (Validation):**
 - 'note' => 'nullable|string|max:500'

[POST] /api/admin/employer-documents/{docId}/approve

- **Controller Action:**
App\Http\Controllers\Admin\AdminWorkerController@approveEmployerDocument
- **Parameters (Validation):**
 - 'note' => 'nullable|string|max:500'

[POST] /api/admin/employer-documents/{docId}/reject

- **Controller Action:**
App\Http\Controllers\Admin\AdminWorkerController@rejectEmployerDocument
- **Parameters (Validation):**
 - 'note' => 'required|string|max:500'

[POST] /api/admin/jobs/{id}/suspend

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@suspendJob
- **Parameters (Validation):**
 - 'note' => 'nullable|string|max:500'

[POST] /api/admin/jobs/{id}/restore

- **Controller Action:** App\Http\Controllers\Admin\AdminWorkerController@restoreJob
- **Parameters:** (No explicit \$request->validate found in method body)

[GET|HEAD] /api/admin/jobs

- **Controller Action:** App\Http\Controllers\Api\AdminJobController@pendingJobs
- **Parameters:** (No explicit \$request->validate found in method body)

[PUT] /api/admin/jobs/{id}/review

- **Controller Action:** `App\Http\Controllers\Api\AdminJobController@reviewJob`
- **Parameters (Validation):**
 - `'status' => 'required|in:published`
 - `rejected'`
 - `'rejection_reason' => 'nullable|string'`

[POST] /api/admin/users/{id}/suspend

- **Controller Action:** `App\Http\Controllers\Admin\AdminWorkerController@suspendUser`
- **Parameters (Validation):**
 - `'note' => 'nullable|string|max:500'`

[POST] /api/admin/users/{id}/restore

- **Controller Action:** `App\Http\Controllers\Admin\AdminWorkerController@restoreUser`
- **Parameters:** (No explicit \$request->validate found in method body)
